

CORE VALUES

By design, we care about people...

by collaborating; with expertise, education and experience.

by embracing the diversity of our community; being mindful of all perspectives, and treating them with respect and compassion.

by being creative, innovative, and adaptable.

by demonstrating ethics, integrity and transparency.

through teaching, empowering and modeling healthy behavior.

by inspiring resilience and perseverance.

through our commitment to social justice; for housing, economic growth, and breaking the cycle of poverty.
